Sterilize, Express and Feed

Breastfeeding made easy

The Natural All-in-one starter set is the ideal set for moms who want to start expressing and feeding in a clean and simple way. The set contains all the products needed to: sterilize, express your milk and feed your baby.

Express
- More comfortable pumping position due to unique design
- Soft massage cushion with warm feel

Effective sterilization
- Natural steam sterilization kills 99.9% of harmful germs

3-in-1 sterilizer
- Adjustable size

Fits all bottle types
- Suitable for wide neck and narrow neck bottles

Feed
- Natural latch on due to the wide breast shaped nipple
- Unique comfort petals for an extra soft and flexible nipple

Highlights

Natural latch on

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

More comfortable position

The breast pump has a unique design, so your milk flows directly from your breast into the bottle, even when you are sitting up straight. This means you can sit more comfortably when pumping: no need for you to lean forward to make sure all your milk ends up in the bottle. Sitting comfortably and being relaxed when pumping, naturally helps your milk to flow more easily.

Soft massage cushion

Our massage cushion has a new soft velvety texture that gives a warm feel to the skin for comfortable, gentle stimulation of your milk flow. During pumping, it gently mimics your baby's suckling for natural let down and clinically proven effectiveness. The soft massage cushion is designed to comfortably fit the majority of moms. Should you need it, a larger size cushion is available separately (availability may vary per country).

Fits all bottle types

The sterilizer has been designed to fit both wide neck and narrow neck bottles as well as different breast pumps and accessories. This gives you the freedom to choose the bottles and accessories that best suit you and your baby. At full capacity the sterilizer holds six 11oz / 330ml Philips AVENT bottles.

3-in-1 sterilizer

Due to its adjustable size, this 3-in-1 Philips AVENT sterilizer perfectly fits the items you would like to sterilize and always takes up the least amount of kitchen space. The 3-in-1 functionality gives you: 1) Small size configuration for sterilizing soothers 2) Medium size configuration for sterilizing breast pumps, toddler plates, knives, and forks 3) Large size configuration for sterilizing 6 baby bottles

Kills 99.9% of harmful germs

Sterilizing protects your baby from particularly harmful bacteria until his immune system is strong enough. Philips AVENT Sterilizers use the hospital method of steam sterilization, which is quick, easy, and effective, with no chemicals involved. Contents stay sterile for 24 hours if the lid is unopened.

Unique comfort petals

Petals inside the nipple increase softness and flexibility without nipple collapse. Your baby will enjoy a more comfortable and contented feed.
